Community Foundation  
FOR SOUTHEAST MICHIGAN

**The Community Foundation for Southeast Michigan is a multifaceted, full-service philanthropic organization leading the way to positive change in southeast Michigan.**

We promote and facilitate community philanthropy in the seven counties of Wayne, Oakland, Macomb, Monroe, Washtenaw, Livingston and St. Clair, and we help donors invest in organizations they care about — locally and nationwide.

We do this by:

- Making strategic investments in programs and organizations that benefit the region
- Equipping organizations and the public with knowledge and information that will lead to positive change
- Building endowment — community capital — to meet our region's needs, today and tomorrow, and
- Providing expert assistance to donors and their advisors in their charitable planning.

# MESSAGE FROM THE CHAIR AND PRESIDENT

## When the Community Foundation was created 31

**years ago, the world was a very different place.** The Nobel Prize for medicine had recently gone to researchers who discovered a new link between cholesterol and heart disease. Martina Navratilova and Chris Everett were battling it out on the tennis courts. Scientists had just discovered a mysterious opening in the earth's ozone layer. Apple introduced a user-friendly computer called Macintosh. And an unknown Detroiter named Madonna was preparing for her first national tour.

Despite the differences, much remains the same. The fundamental needs of our communities — food and shelter, health care, education, jobs and economic opportunity — remain consistent. We share many of the same aspirations today — we want safe and welcoming neighborhoods, great arts and cultural organizations, and beautiful outdoor spaces for recreation and renewal. And like every generation before us, we sometimes face unexpected problems and hardships that test our resolve.

One important difference is that today we have the resources of the Community Foundation to help find ways to move forward. The founders of the Community Foundation were motivated by the vision of a permanent source of community capital to support our region in good times and in challenging ones. Thanks to the

generosity of the people of southeast Michigan, in just three short decades our assets have increased to more than \$765 million, nearly 70 percent of which is endowed. Each year our community receives millions of dollars of grants made possible by the funds we hold.

Last year, the Detroit bankruptcy presented an extraordinary challenge that demonstrated some new ways a foundation like ours could serve the community. First, our deep connection to Detroit and southeast Michigan made it possible to convene other foundations and organizations locally and nationally to help the city at a time of great peril. In addition, we served as a trusted place where individual donors from around the country could send their financial contributions and show their solidarity. Finally, at the conclusion of the “Grand Bargain,” the Community Foundation was selected to administer over the next 20 years the funds that support the historic agreement to protect Detroit pensions and the collections of the Detroit Institute of Arts.

The Foundation for Detroit's Future, referenced on page 55 of this publication, is the new organization affiliated with the Community Foundation that was created to carry out this work. Because we are here in perpetuity, the Community Foundation can take on such long-term initiatives as this. In many ways, it is similar to the work we do every day in carrying out the charitable intentions

## 2014 HIGHLIGHTS

- The Community Foundation and its supporting organizations received more than \$75 million in new assets.
- Donors established 47 new funds.
- The Foundation distributed nearly \$99 million through more than 3,800 grants.
- By year-end, the Community Foundation had awarded a total of more than \$680 million through 51,000 grants since its inception.

of donors, living and deceased. We embrace this responsibility and are grateful to those who have placed their confidence in us.

In 2014, grants authorized to organizations in southeast Michigan and beyond reached a record high of nearly \$99 million. This total included the grant activity of our four supporting organizations — the DMC Foundation, the Foundation for Detroit’s Future, the Gilmour-Jirgens Fund and the Robert H. Tannahill Foundation. Supporting organizations are corporations that benefit from the

**The New Economy Initiative (NEI)**, a partnership of foundations, now in its eighth year, has invested more than \$87 million in helping to diversify the regional economy and stimulate entrepreneurial development. We estimate that these investments have leveraged an additional \$603 million in support of these efforts. Nearly 140,000 individuals have received entrepreneurial training and support services and nearly 7,000 new and existing businesses have been assisted. More than 14,000 jobs and 1,330 new enterprises have been created since 2009, the majority in non-automotive industries.

public charity status and grantmaking and investment expertise that come from being a part of the Community Foundation.

Each year the Community Foundation makes thousands of grants in response to needs and programs brought to our attention by nonprofit organizations. We also proactively develop multiyear special projects — strategic initiatives that attract additional public and philanthropic dollars to our region for long-term impact. Here are a few highlights from several of our special projects.

**The Detroit Head Start Early Childhood Innovation Fund**, a collaborative of regional and national funders based at the Community Foundation, is supporting new and innovative Head Start services in the city of Detroit. We are sharing best practices and information on outcomes of the participating providers. We are also pursuing a communications strategy to raise awareness of Head Start programs, targeting audiences from parents to policymakers with critical information about early childhood education.

**The GreenWays Initiative of the Community Foundation**, which began 14 years ago, will soon reach an important milestone with the completion of the northern extension of the Dequindre Cut. It is the final link in 11 miles of continuous urban greenways extending along the Detroit Riverwalk, through Eastern Market, to the cultural institutions of Midtown and Wayne State University. Although it is less than a mile of the 100-plus miles of regional greenways funded by the Community Foundation, the Dequindre Cut extension was one of the most complex projects undertaken to date. The effort received funding from an array of public, private and philanthropic sources, and involved years of work acquiring the property, making extensive streetscape improvements to Eastern Market and repairing four aging bridges.

**Our YOUTH Voice Initiative for Social Justice** is providing unique, youth-driven opportunities for leadership development. Its first phase, a year of training for youth and youth-serving organizations, was followed by a regional survey of community needs by youth for youth. We then funded 18 exciting community projects designed to address these needs, created and pitched by the youth themselves. In September the grantees will present a progress report on their work. Watch our website, [cfsem.org](http://cfsem.org), for more details.

In this Yearbook you will find stories about a wide array of important, effective work that is made possible through grants from the Community Foundation. The examples contained in this publication represent only a fraction of the thousands of programs we support each year. We are able to make these important investments in the welfare

of our communities through the generosity of those who support the Community Foundation and those who choose to do their charitable giving with us. We thank them for their support.

As at every point during our history, we benefited from the good counsel and generous support of our outstanding Board of Trustees. We extend our most sincere gratitude for their commitment and for the confidence they place in us. We also appreciate the hard work of our staff and many volunteers.

Finally, we thank you for your interest in and support of the Community Foundation. You can learn more about our support for donors and nonprofits in southeast Michigan by visiting [cfsem.org](http://cfsem.org). Please let us know how we are doing and share your own ideas for a stronger and more vibrant southeast Michigan. We contributed funding for community engagement, design and construction of six projects — a treehouse in St. Clair County; a splash pad in Oxford Township; parks in Detroit and the city of Wayne; an accessible kayak launch in Wyandotte; and a universal water park at Mt. Elliott Park on the Detroit Riverfront (pictured here). Two more projects are slated for 2015: a splash pad in Flat Rock and an innovative playscape at Gallup Park in Ann Arbor. Communities throughout our region continue to advocate for universal design in nearly all newly built environments.

**SAFER SOCIAL MEDIA**

Today's youth have grown up in a digital social culture that puts the world at their fingertips. There are many benefits to instant connectivity, yet there are also potential dangers if the technology is not properly understood and respected. Inappropriate posts can result in young people being put in compromising situations on social media, and online predators and other misuses of social platforms abound. To address these emerging issues, the Washtenaw Area Council for Children has developed a cyber-safety and cyber-bullying prevention program that uses trained peer mentors to teach responsible digital behavior and sensitivity to online threats. A grant from the Community Foundation, made at the recommendation of our Youth Advisory Council, will extend the program to an additional 5,000 students and 200 adults in the coming year. The program shows promise for becoming a replicable model for other communities.

## INNOVATION

Like any good investor, the Community Foundation looks for innovative ideas to fund. Last year, more than three-quarters of Michigan nonprofits reported struggling to balance increased demand for their services with fewer and more constrained resources, necessitating new approaches to their work. Often, creative ideas come when we look at a problem from a new perspective. What are the national trends in addressing this problem? Are there organizations in our communities that could extend their reach or increase their service to meet the need? Could collaboration strengthen a program or approach? Beyond leveraging dollars, we like to see good models, ideas and human resources leveraged for community good. We support programs that bring the best thinking to problems that elude easy solutions.

## SUSTAINABILITY

We consider sustainability from two perspectives. First, we support projects and ideas that are tied to a long-term vision for an organization, and that align with its overall financial health and fundraising capabilities. We strive to support organizations at key moments along their path, such as helping to put new strategies in place or build out existing ones to meet demand.

Second, we consider sustainability in a global sense. We consider whether an organization's programs, policies and practices are sustainable for our economy and our region. We seek to support efforts that help meet current needs while anticipating future needs, and that are socially equitable and mindful of environmental and economic impacts.

## REACHING NEW AUDIENCES

The Michigan Opera Theatre (MOT), like most opera companies, struggles to overcome the belief that its art form is only for elite audiences. With support from the Community Foundation, MOT is reaching out to new audiences enthusiastically and creatively. For their recent production *Frida* — based on the life of Frida Kahlo and coinciding with an exhibition at the Detroit Institute of Arts that focuses on the artist and her husband Diego Rivera — MOT held mini-previews of the opera featuring soprano Catalina Cuervo at venues around the region. Their outreach to Detroit's Hispanic community was particularly robust, and included a concert at the Mexicantown Mercado in southwest Detroit, numerous school concerts and workshops, and partnerships with Mexican restaurants, dance companies and music groups. They even commissioned Mexican craftspeople to create costumes for the opera based on the traditional clothing that Kahlo wore. We look forward to watching their community outreach over the four-year duration of this grant.

## BUSINESS ADVISED FUNDS

The Community Foundation offers a wide range of support, administrative and financial services to help our partners in the business community advance their philanthropic goals. Many of our partners elect to set up advised funds with the Community Foundation to assist with their charitable grantmaking, employee matching gift program or volunteer grant program.

### DTE ENERGY FOUNDATION EMPLOYEE MATCHING FUND

### DTE ENERGY HOLIDAY FUND

This fund supports the DTE Energy Foundation Holiday Season Matching Gifts Program, which assists organizations providing hunger relief and shelter services throughout Michigan. The fund is supported by the caring employees and families of DTE Energy and the DTE Energy Foundation.

## LEVERAGE

At the Community Foundation, we want the funds we invest to leverage more dollars into the organizations we support and into our region. That could mean utilizing a Community Foundation grant as a private match for federal funds or to attract other private investment. Or a grant might be used to rally other donors around a project or an important issue. In still other cases, organizations use funding to help strengthen the impact of our regional assets for the long-term benefit of all. It is an important part of our mission to attract more investment to the nonprofit sector of southeast Michigan.

## **GROWING FARM BUSINESSES**

Agriculture is big business in Michigan, employing about 22 percent of the workforce and contributing more than \$100 billion to the state's economy annually. Increasingly, Detroit residents are trying their hand at farming, taking advantage of the city's vacant land and tapping into the demand for fresh, sustainable and locally grown food at farmers' markets and local restaurants. The Community Foundation has supported a number of projects focused on making small-scale farming more profitable and compatible with residential neighborhoods which is important in Detroit, where cultivatable lots often sit next to intact blocks of homes. In 2014, the New Economy Initiative, through its small business support program NEIdeas awarded five urban farmers \$10,000 grants to help improve their businesses.

### SUPPORTING ENTREPRENEURS

When it comes to harnessing resources for our region, the New Economy Initiative (NEI) came out of the starting gate setting records. The largest-ever philanthropic economic development initiative when it launched at the Community Foundation in 2007, the \$100 million initiative was funded by 10 local and national foundations. In 2013, NEI raised an additional \$33 million from funders for a second round of work. To date, nearly 140,000 people have benefitted from the entrepreneurial training, services and support funded by NEI, and thousands more are employed at the estimated 1,330 new businesses created. Together, the organizations NEI supports and the businesses they serve have leveraged an estimated \$603 million in additional funding. Last year, NEI made it a priority to help existing neighborhood businesses in Detroit, Hamtramck and Highland Park. Cash awards were made to 30 small companies to fund their business improvement ideas. The owners of Sherwood Prototype (pictured here) used their grant to help them diversify into short-run manufacturing.

## QUALITY HOUSING FOR SENIORS

The Community Foundation supports a variety of organizations that are working to develop better housing and health care opportunities for seniors. In Detroit, our first-in investment of \$1 million helped Presbyterian Villages of Michigan, United Methodist Retirement Communities and Henry Ford Health System create a state-of-the-art, affordable assisted living complex on the Detroit River. The three partner organizations raised and leveraged more than \$40 million of private, public and philanthropic dollars to set a new standard for high-quality senior housing. Now, with our support, Presbyterian Villages has formed a partnership with Hartford Memorial Baptist Church, one of the largest congregations in Detroit, to replicate this successful model on the city's northwest side. Health care and gerontology experts, together with religious leaders, are finding innovative ways to provide subsidized and market-rate supportive housing that makes it possible for residents to spend their later years near their faith communities and familiar surroundings.

### AFTER-SCHOOL ROWING IN DETROIT

The Detroit Boat Club, established in the 1830s, was once the center of rowing in America, producing scores of national champions. That distinction is lost to history, but the tradition of rowing on the Detroit River remains strong, with high school crew teams and master rowers alike practicing their sport daily. With support from the Community Foundation, the amateur rowing club Friends of Detroit Rowing is broadening access to rowing. They are expanding their learn-to-row program and bringing more city youth to the sport, offering them a new connection to the international waterway in their backyard. The program is an excellent example of leveraging existing assets to address important social needs — in this case, a shortage of high-quality after-school activities for Detroit teens.

# SUPPORTING ORGANIZATIONS

A supporting organization is a separate corporation affiliated with the Community Foundation. Supporting organizations offer donors significant advantages — favorable tax status, and full participation in grantmaking and investment activities — while avoiding the financial and management burdens private foundations often encounter. Supporting organizations also take advantage of the professional support of Community Foundation staff to assist in the administration of their funds. Donors may establish new supporting organizations or terminate existing private foundations into supporting organizations at the Community Foundation.

## THE DMC FOUNDATION

The board of directors of the Health and Wellness Foundation of Greater Detroit established this supporting organization in 2012, using charitable assets identified during the sale of the DMC Hospitals. The DMC Foundation is dedicated to promoting the welfare of people in the metropolitan Detroit area through the support of health-related research, education and community activities. The DMC Foundation is led by a 15-member governing board.

## FOUNDATION FOR DETROIT'S FUTURE

The Foundation for Detroit's Future was established to assist in Detroit's emergence from bankruptcy and the restoration of the city's economic and cultural vitality for the benefit of all residents of the city, region and state. The Foundation for Detroit's Future implements the funding of the DIA Settlement (commonly known as "The Grand Bargain"), that was negotiated by Federal Mediator the Honorable Judge Gerald E. Rosen and Eugene Driker, and is part of Detroit's overall Plan of Adjustment. It is led by a five-member governing board.

## THE GILMOUR-JIRGENS FUND

Allan D. Gilmour, former vice chairman of Ford Motor Co., established this affiliated foundation in 1995 to support charitable organizations and activities of interest to him and to Eric C. Jirgens. Grants from the Gilmour-Jirgens Fund are selected by the fund's five-member governing board.

## ROBERT H. TANNAHILL FOUNDATION

# MAKING A GIFT

---

For more than 31 years, the Community Foundation has been helping donors fulfill their philanthropic goals. Here are some of the ways the Community Foundation can help you make the most of your charitable dollars.

---

## **WE HELP YOU WITH STRATEGIC PHILANTHROPY AND PERSONALIZED GRANTMAKING**

What is your vision for the future? How would you like to make a difference? Either through personal, one-on-one conversations, or by working with your professional advisor, we help you create giving solutions that reflect your personal values, motivations and goals. Our staff can tell you about grant opportunities that meet your charitable objectives and interests.

---

## **WE WORK WITH GIFTS OF ANY SIZE AND DONORS AT EVERY LEVEL OF GIVING**

What does it take to become a donor? Getting started is easy, and there is no reason to wait. The Community Foundation can help every donor find the right charitable-giving tools to match their stage of life and their preferred level of giving.

---

## **WE MULTIPLY THE IMPACT OF YOUR GIFT DOLLARS BY POOLING THEM WITH OTHER GIFTS AND GRANTS**

How can your donation, no matter how large or small, make an even greater impact on the causes you care about? Because the Community Foundation accepts gifts from hundreds of individuals and organizations each year, we are able to pool gifts from donors who share common interests and increase the dollars available to invest in a particular cause. This is the power of collective, community philanthropy.

---

## **WE HELP ANY GIFT HAVE BOTH AN IMMEDIATE AND A LONG-TERM IMPACT**

How can you have an impact both now and in the future? If you make a gift to an endowment, it becomes part of a permanent pool of assets that support charitable causes in perpetuity. Over time, as the endowment grows, it produces more charitable dollars that go back into the community. The gift you make today keeps on giving forever.

---

## **WE HONOR YOUR CHARITABLE INTENTIONS**

How do you know that your gift will continue to support the causes you care about long after you are gone? By partnering with the Community Foundation, you are assured that your charitable dollars will always serve the purpose you intended. The Community Foundation's Board of Trustees oversees all grantmaking and carefully stewards the charitable assets our donors have contributed over the years.

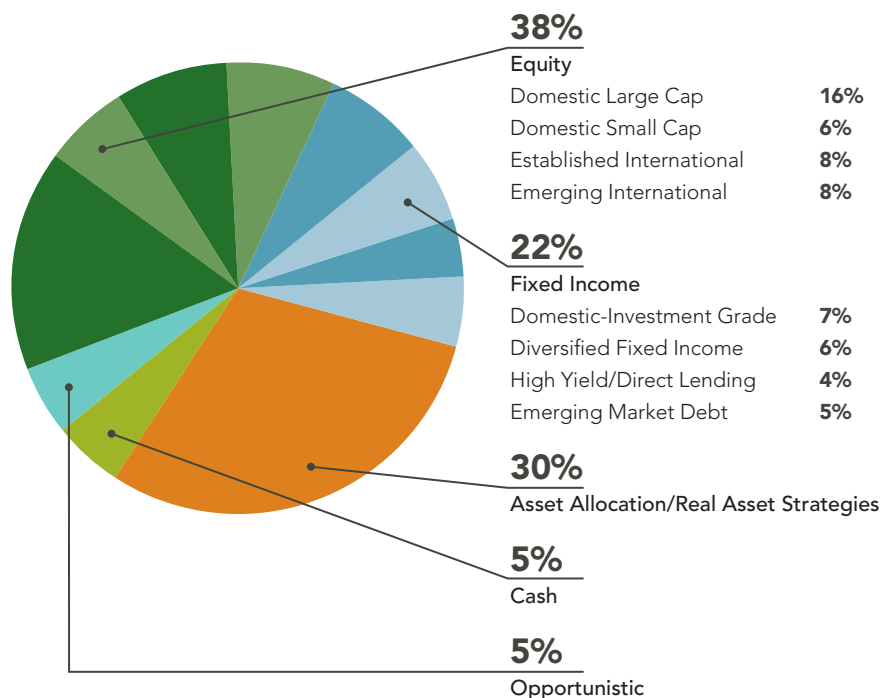

# ENDOWMENT INVESTMENT HIGHLIGHTS

The Community Foundation's Investment Committee and its consultant NEPC, LLC, meet regularly to deal with investment risks and opportunities as they arise. We thank them for their hard work and excellent counsel.

At December 31, 2014, the endowment investment pool totaled \$527 million, representing nearly 70 percent of the Foundation's total assets. The endowment pool represents a permanent source of philanthropic capital for our region.

For the year, the net of fee return of the endowment pool was 3.6 percent, which underperformed the median endowment and foundation return of 4.4 percent. The results for the year ranked in the 75th percentile relative to peers, while the long-term performance remains favorable as the Foundation's endowment portfolio ranked in the top half of its peers for the 10-year period.

The chart below reflects the target asset allocation of the Foundation's endowment pool at December 31, 2014. The portfolio is designed to be globally diversified and to balance risk, reducing the reliance on any single asset class. The asset allocation is reviewed each year to see if modifications are appropriate given changing capital market conditions.
