FOR SOUTHEAST MICHIGAN

2010 Yearbook

Our mission is to enhance the quality of life in southeast Michigan.

We promote and facilitate community philanthropy in the seven counties of Wayne, Oakland, Macomb, Monroe, Washtenaw, Livingston and St. Clair, and we also help donors invest in organizations they care about nationwide.

We do this by:

- Making strategic investments in programs and organizations that benefit the region
- Equipping organizations and the public with knowledge and information that will lead to positive change
- Building endowment – community capital – to meet our region’s needs today and tomorrow, and
- Providing expert assistance to donors and their advisers in their charitable planning.

Message from the Chair and President

2009 Highlights

- The Community Foundation and its affiliates received more than \$32 million in new gifts.
- Donors established 30 new funds.
- The Foundation distributed more than \$64 million, through nearly 2,900 grants, to a wide range of charitable activities.
- By the close of 2009, the Foundation had awarded more than \$398 million in nearly 35,000 grants since its founding.

In 2009, the Community Foundation marked the beginning of our 25th Anniversary year. We take pride in how our donors, grantees, programs and initiatives have contributed to improving the quality of life in southeast Michigan. But anniversaries are best used not just to reflect on past accomplishments, but also to focus on the future, and how our mission and strategies can increase our effectiveness and our continued impact in the community.

In the years ahead, the Community Foundation will continue to strengthen our community by supporting programs and organizations that improve the lives of individuals and families, by developing solid, innovative partnerships and by sharing cutting-edge knowledge. The Community Foundation will continue to build endowment – community capital – with gifts from thousands of people and organizations. And each day we will work with others – both individuals and organizations – on the important issues that are too large to tackle alone.

As we look at 2009, the Community Foundation authorized the largest dollar amount of grants in our history – more than \$64 million through nearly 2,900 grants. This was more than a 40 percent increase over grants authorized in 2008. We thank our donors for providing more than \$32 million in new gifts and for establishing more than 30 new funds. Even with the significant increase in grant commitments, 2009 saw the Community Foundation's assets grow back to \$572 million, aided by new gifts and a 20.3 percent rate of return on our endowment.

Last year was clearly one of great challenge and financial stress for organizations in the nonprofit sector. That is why we focused on increasing our financial support to organizations that we all depend upon for important services and for the quality of life we enjoy. To provide immediate assistance, we implemented several special programs that included awarding \$25,000 grants for operating support to each of 25 exemplary organizations, helping 75 cultural organizations raise more than \$5 million in operating support and providing operating grants to 50 organizations that provide much-needed services to individuals with disabilities.

We continue to celebrate the work of our GreenWays Initiative, and the completion of each new mile of trail and pathway that expands the seven-county regional greenways network. We look to the possibilities the future holds by developing GreenSpace, a new online resource to help enhance the landscape and our lives.

We also look forward to the completion of the renovation and opening of University Prep Science & Math High School. This school, developed in

partnership with the Thompson Educational Foundation, is located one mile east of downtown Detroit and near the Detroit River. The presence of a high-quality school that provides a globally competitive education in science and mathematics will strengthen this neighborhood and help spur its redevelopment and growth. The Community Foundation grant of \$1.5 million for the renovation and construction of the school is an important component of the larger work of the Community Foundation's Detroit Neighborhood Fund. This \$15 million multiyear program is a commitment to Detroit's near-east side neighborhoods, made possible through our partnership with The Ford Foundation and the W.K. Kellogg Foundation.

Entrepreneurial development in southeast Michigan, a focus of the New Economy Initiative, received a significant boost from the Ewing Marion Kauffman Foundation in 2009. Kauffman, the world's largest foundation devoted to entrepreneurship, joined with 10 local and national foundations collaborating on the \$100 million New Economy Initiative by bringing its expertise and programs to the region. Already, more than 850 people have completed the Detroit-based FastTrac program, and it is estimated that in the first year alone, dozens of businesses will be started by participants. This is just one example of the more than 30 programs supported by the New Economy Initiative that are working to stimulate the transition of the region's economy.

We thank the staff and the many volunteers of the Community Foundation for their support and dedication. We are especially grateful to the Trustees who, throughout the past 25 years, have provided the Foundation with visionary, steadfast leadership. We express our sincere thanks to Julie Fisher Cummings, Tarik S. Daoud, Chacona W. Johnson and Ellen V. Price, who completed their service in 2009. We are pleased to welcome as new Trustees Barbara Allushuski, John M. Erb, David Baker Lewis and Dr. Henry W. Lim.

We look forward to our next 25 years of service to this region with hope and excitement. Whatever the future brings, we will continue to lead with ideas, knowledge and skill – wisely using the financial resources that have been so generously entrusted to the Community Foundation. With the support of all our donors, Trustees and staff, we will continue to improve the quality of life in this region for generations to come.

Our 25th Anniversary Year

During the Community Foundation's 25th Anniversary in 2009, we celebrated by doing. The Community Foundation highlighted some of what makes southeast Michigan so special – emphasizing the need to support organizations that make an important difference in our region and encouraging more community engagement with those organizations. The Community Foundation announced new ideas and new support to help strengthen our community.

Throughout the anniversary year, the Community Foundation brought visibility to the hundreds of organizations that are important to the quality of life of all residents in southeast Michigan. For 25 years, we have worked with individuals, organizations and communities throughout southeast Michigan to fulfill our mission. But even as we reflect on our accomplishments, we look forward to making an even greater impact in the future. This led us to develop programs throughout our 25th Anniversary year to highlight organizations that are so important to our region. We look forward to announcing more programs to benefit these organizations in the years to come.

COMMUNITY IMPACT

In June 2009, the Community Foundation launched its 25th Anniversary year by highlighting 25 nonprofit organizations from its seven-county service area that demonstrate the Foundation's key areas of community impact. The \$625,000 in grants came as a welcome surprise to the 25 nonprofit agencies when each was presented with a check of \$25,000 to support their continued work in improving the quality of life in the region.

The Community Foundation's first 25 years focused on 12 areas of impact. While thousands of organizations have received Community Foundation grants, the organizations that received the \$25,000 special anniversary grants exemplify the Community Foundation's major areas of impact.

ARTS AND CULTURE

Recognizing the important role that arts and cultural institutions play in enhancing the quality of life throughout the region, and in light of the current economic climate, the Community Foundation partnered with the Cultural Alliance of Southeastern Michigan to launch the Community Foundation Challenge – Arts & Culture. In just 11 hours, more than \$5 million was secured for the 75 participating arts and cultural organizations.

In addition to securing general operating support, the Community Foundation Challenge – Arts & Culture helped participating organizations learn about social media and online giving as a means to expand their organization's outreach. These nonprofits used e-mail, Facebook, Twitter and other social marketing tools to engage their audiences, donors, friends, and new supporters. These tools will continue to enable organizations to broaden their reach and strengthen connections to those who want to participate in and support arts and culture in the region.

HUMAN NEEDS

With help from leaders of local organizations that serve people with disabilities in the region, the Community Foundation announced 50 grants to organizations that serve individuals with hearing, vision, developmental and other physical disabilities. Each organization received a grant of \$2,500 to help provide much-needed operating support. These organizations are examples of the diversity of quality providers that serve the more than 800,000 individuals with disabilities in the region.

Programs and Grants

Through our grantmaking, the Community Foundation for Southeast Michigan seeks to build a stronger, more competitive region by encouraging regional thinking and cooperation, fostering innovation and creative solutions, and leveraging additional resources for area organizations and communities.

In 2009, we awarded the largest dollar amount in grants in our history – providing more than \$64 million to a wide range of charitable organizations and activities. On the following pages, you will find a small sample of the nearly 2,900 grants made by the Community Foundation last year. Many grants responded to the current pressing needs of our community, funding the vital work of many of the region’s charitable organizations. The Community Foundation also continues to invest in long-term positive regional change through multiyear initiatives that target specific issues. Community Foundation initiatives such as the GreenWays Initiative, the Detroit Neighborhood Fund and the Detroit Safe Community Collaborative bring together dollars, knowledge and expertise from local and national sources to strategically focus on challenges and opportunities in the region. All of these efforts are the result of collaboration with others and support from many partner foundations.

The Fair Food Network (FFN) is working to improve the food system in Detroit by increasing the availability of fresh, sustainably-grown and locally sourced food, particularly in historically excluded communities. By doing this, FFN will help improve the health of Detroit residents, who suffer from higher rates of diet-related chronic illness than the rest of the region; improve the economic viability and environmental sustainability of the local agricultural sector; and create food-related revitalization opportunities for the city of Detroit and the region. A grant from the Community Foundation's Detroit Neighborhood Fund supports the Fair Food Detroit program's near-east side activities.

People riding along the Detroit RiverWalk are enjoying one of the catalytic investments of the Community Foundation's GreenWays Initiative. The 3.5-mile RiverWalk has become one of the region's favorite public gathering places, and is a critical link in the expanding network of greenways that connect neighborhoods in Detroit and communities throughout the region. GreenWays Initiative investments throughout southeast Michigan help communities become more pedestrian- and bike-friendly, with trails and pathways that are essential for community vitality.

The University Musical Society (UMS), the oldest university-affiliated, arts-presenting organization in the country, has expanded its curatorial focus from a relatively narrow view of Western classical art forms to one that encompasses the demographic changes in the region. Through the new Global Programming Initiative, UMS will rotate its major focus each season to highlight one of four major cultural communities. A grant from the Community Foundation supports educational activities related to the Africa Series, which includes performances as well as educational and community-based events, all featuring renowned artists who self-identify as African and/or represent African musical traditions with authenticity.

Funds of the Foundation

The founders of the Community Foundation believed it was important to build a strong, vibrant southeast Michigan for both current residents and for generations to come. They knew that pooling the professional and financial resources of the community would foster the innovation and creative solutions needed to improve the quality of life for all throughout the region. For more than 25 years, caring and civic-minded individuals, families and organizations have established more than 900 funds at the Community Foundation to do just that.

The funds of the Community Foundation reflect the varied wishes of their founders – whether the fund is a permanent endowment or a donor advised fund reflecting a donor’s current interests. Many endowment funds provide lasting support for a charitable cause or specific organization, while others provide the Community Foundation with flexibility to meet the region’s ever-changing needs and seize important opportunities that arise throughout southeast Michigan.

In all cases, these funds help to connect those who care with causes that matter. Our Board, volunteers and staff honor the intent of the donors to the Community Foundation by ensuring that the grants made from each fund follow the purposes intended by the founders of these funds – both now and into the future.

NAMED FUNDS

Donors may establish a named fund as a legacy of their commitment to the community or to a particular cause. Donors who desire no public recognition of their charitable giving can also use named funds to protect their anonymity. Whatever the donor’s wish, creating a named fund at the Community Foundation is simple and takes little time. The results, however, will last forever.

A Community Foundation grant to Matrix Human Services supports the Osborn Neighborhood Prisoner Re-entry Program, a neighborhood-based, integrated, comprehensive system of care to facilitate the successful transition of formerly incarcerated men and women to the Osborn community in northeast Detroit. The program was conceptualized by the Detroit Safe Community Collaborative, a group of local funders interested in supporting issues related to community safety in partnership with the Michigan Prisoner ReEntry Initiative, and includes both individual and community-level support, and interventions with specific emphasis on employment, housing and public safety initiatives.

Across the region, communities are facing the need for wellness programming to augment the health care of older adults. A grant from the Community Foundation and the Chelsea Community Foundation supports the Chelsea Senior Citizens Activities Center's Total Wellness Program. The program builds on and leverages numerous assets of the Chelsea community, with a more specialized focus on older adults with chronic conditions or other specialized needs, without replicating services in the area. As a geographic affiliate of the Community Foundation for Southeast Michigan, the Chelsea Community Foundation supports projects that improve the well-being and quality of life of residents in the Chelsea area.

AFFILIATED FOUNDATIONS

The following affiliated foundations are administered as part of the Community Foundation. Each affiliate is dedicated to building charitable resources for a particular geographic area within southeast Michigan, and to investing those resources in programs and organizations working to enhance the quality of life in that area.

Each is led by an advisory committee of civic leaders and is supported by many local individuals, families, businesses and nonprofit organizations committed to building a strong and vibrant community. Community Foundation staff assists each affiliate in making effective investments in local nonprofits and helping its donors fulfill their charitable interests.

Chelsea Community Foundation

The Chelsea Community Foundation assists caring people and organizations in the Chelsea area that want to give back to their community. The Chelsea Community Foundation was formed by the Foundation for Community Care and the Civic Foundation of Chelsea, and became affiliated with the Community Foundation for Southeast Michigan in 1995. The following funds were established through gifts and bequests to benefit the Chelsea Community Foundation.

Established in 2000, this fund provides scholarships to students graduating from Fowlerville High School who plan to study chemistry, physics, mathematics or electrical or mechanical engineering.

Harry Malynowsky Fund

This fund was created in 1993 by Mr. Malynowsky to support nonprofit educational programs that serve the residents of Livingston County.

Parke Family Fund

Founded in 1993 by John Parke Jr., this fund provides support in perpetuity for charitable activities that improve the well-being of the Livingston County community.

John P. and Janet V. Rex Family Fund for Livingston County

The John P. and Janet V. Rex Family Fund for Livingston County, established in 1997, supports charitable organizations and activities throughout Livingston County.

Patricia Joann Riley Memorial Fund

This fund was established in 2002 by Clyde Riley in memory of his wife, to support and promote educational, scientific, literary, cultural and charitable purposes, primarily in and for the residents of Livingston County.

H.W. Sr. and Pearl S. Scofield Fund

The generations of the Scofield family established this fund in 1991 in honor of their parents and grandparents, H.W. Sr. and Pearl S. Scofield. The fund supports and promotes a broad range of charitable activities that directly benefit the residents of the city of Howell and the surrounding townships of Howell, Genoa, Marion and Oceola.

Dr. Roscoe V. and Barbara D. Stuber Fund

Dr. and Mrs. Roscoe V. Stuber created this fund in 1996 to support charitable organizations and activities throughout Livingston County.

Westran Scholarship Endowment Fund

Named in honor of Roy A. Westran, retired president of Citizens Insurance Company of America, this fund was established in 1993 to provide scholarships for students planning to pursue careers in the insurance industry.

SUPPORTING ORGANIZATIONS

A supporting organization is a separate corporation managed by the Community Foundation. Supporting organizations offer donors significant advantages – favorable tax status, and full participation in grantmaking and investment activities – while avoiding the financial and management burdens private foundations often encounter. Supporting organizations also take advantage of the professional support of Community Foundation staff to assist in the administration of their funds. Donors may establish new supporting organizations or terminate existing private foundations into the Community Foundation.

The Gilmour-Jirgens Fund

Allan D. Gilmour, former vice chairman of Ford Motor Co., established this affiliated foundation in 1995 to support charitable organizations and activities of interest to him and Eric C. Jirgens. Grants from The Gilmour-Jirgens Fund are selected by the fund’s five-member governing board.

Robert H. Tannahill Foundation

Robert Hudson Tannahill, a philanthropist and avid patron of the arts, created the Robert H. Tannahill Foundation in 1961. The foundation affiliated with the Community Foundation in 2001. At that time, it was valued at approximately \$54 million. Today, the foundation continues to support the eight nonprofit organizations selected by the late Mr. Tannahill.

Donors to the Foundation

We extend our deepest gratitude to our donors who, in 2009, entrusted more than \$32 million in gifts to the Community Foundation. The list that follows includes those who made gifts to meet the changing needs of the region and to build the endowments of more than 160 charitable organizations.

Since 1984, thousands of individuals, organizations, families, businesses and other foundations have worked with the Community Foundation to fulfill their charitable interests. We want to thank everyone who entrusted their charitable wishes to us more than 25 years ago, as well as those who are investing with us – in the region and in institutions – today.

SPECIAL TAX CREDIT

Michigan law permits individuals and businesses to reduce their Michigan Income Tax or Michigan Business Tax by a credit of 50 percent of the amount contributed to a Community Foundation endowment fund, subject to the following maximum credits:

- \$100 for an individual, single or married and filing separately – based on a gift of \$200 or more.
- \$200 for a married couple filing jointly – based on a gift of \$400 or more.
- \$5,000 or 10 percent of the tax liability before claiming any credits, whichever is less, for a resident estate or trust – based on a gift of \$10,000 or more.
- \$5,000 or 5 percent of the tax liability before claiming any credits, whichever is less, for taxpayers subject to the Michigan Business Tax* – based on a gift of \$10,000 or more.

*Excluding financial institutions and insurance companies.

This credit is in addition to those available for donations to public institutions and food banks. Gifts may also qualify for a federal tax deduction.

Advisory Committees

Each year, hundreds of individuals volunteer their time and expertise to help the Community Foundation achieve its mission of enhancing the region's quality of life.

These dedicated community leaders are involved in many aspects of the Foundation's work, from awarding scholarships to raising funds to reviewing grant proposals. They represent diverse backgrounds, experiences and professions – physicians, business owners, judges, teachers, financial advisers, religious leaders, high school students, retirees – and share a wealth of knowledge about our community. We are grateful to all of our volunteers, whose dedication and commitment exemplify the philanthropic spirit of southeast Michigan. The Community Foundation is pleased to recognize and thank the individuals who, over the past year, served on the following committees.

Endowment Investment Highlights

After the unprecedented turbulence of all investment market sectors in 2008, the relative market stability of 2009 was a welcome respite for the Foundation's endowment. Investment performance rebounded in 2009, with a 20.3 percent gain after a 25.9 percent loss in 2008.

The Community Foundation's Investment Committee met throughout the year to plan for the future of the Foundation's endowment investment program. In 2009, endowment asset allocation changes were made to reduce equity and real return strategies by a total of 10 percent, and to add a new 5 percent allocation each to opportunistic strategies as well as to cash. The revised allocation is expected to meet the long-term target return of the Foundation, while at lower projected risk than the previous allocation.

The chart below reflects the target asset allocation of the Foundation's endowment pool at December 31, 2009. The Committee continues to monitor performance and review asset allocation on an ongoing basis.

Independent Auditor's Report

Board of Trustees
Community Foundation for Southeast Michigan and
Supporting Organizations
Detroit, Michigan

We have audited the accompanying combined statements of financial position of Community Foundation for Southeast Michigan and supporting organizations (the "Foundation"), which are under common control and common management, as of December 31, 2009 and 2008, and the related combined statements of activities and of cash flows for the years then ended. These combined financial statements are the responsibility of the Foundation's management. Our responsibility is to express an opinion on these combined financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such combined financial statements present fairly, in all material respects, the combined financial position of the Foundation as of December 31, 2009 and 2008, and the combined results of its operations and changes in net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Notes to Combined Statements

1. ORGANIZATION

The Community Foundation for Southeast Michigan was founded in 1984 as a permanent community resource, receiving gifts from thousands of individuals and organizations, many of which are placed into endowment funds that will meet community needs in perpetuity. Other gifts are made to funds that may have a shorter duration; however, in all cases, these funds help connect those who care with causes that matter.

The Community Foundation for Southeast Michigan (the "Foundation") has two affiliated Type I supporting organizations, The Gilmour-Jirgens Fund, established in 1995, and the Robert H. Tannahill Foundation, established in 2001. As described in Section 509 (a)(3) of the Internal Revenue Code, Type I supporting organizations are operated, supervised, or controlled by the supported organization.

The accompanying statements of the Foundation have been prepared on a combined basis to include its affiliated supporting organizations. All material interorganization transactions and balances are eliminated in the combined financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation – The Foundation's combined financial statements have been prepared on the accrual basis of accounting, which recognizes revenue and support when earned and expenses when incurred in accordance with generally accepted accounting principles in the United States of America. For financial statement purposes, the Foundation distinguishes between contributions of unrestricted assets, temporarily restricted assets, and permanently restricted assets.

Net Asset Classifications – In August 2008, the Financial Accounting Standards Board (FASB) issued FASB Accounting Standards Codification (ASC) Topic 958-205 (formerly FASB Staff Position (FSP) 117-1, *Endowments of Not-For-Profit Organizations: Net Asset Classification of Funds Subject to an Enacted Version of the Uniform Prudent Management of Institutional Funds Act, and Enhanced Disclosures for all Endowment Funds*). FASB ASC Topic 958-205 provides guidance on the net asset classification of donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA). FASB ASC Topic 958-205 also improves disclosures about an organization's endowment funds (both donor-restricted endowment funds and board-designated endowment funds) whether or not the organization is subject to UPMIFA.

The State of Michigan adopted UPMIFA effective September 10, 2009. The Board of Trustees, with the advice of legal counsel, has determined that the majority of the Foundation's net assets do not meet the definition of endowment under UPMIFA. While not UPMIFA-defined endowment, the Foundation intends many of its funds to be permanent and manages them accordingly. Further reference to "endowment" or "endowed assets" in these notes relate to those intentions of the Foundation.

The Foundation is governed subject to its Articles of Incorporation and Bylaws and further by its adopted investment policy as well as individual gift instruments and agreements. Although the Community Foundation's mission is to build endowed assets, the Foundation has the ability, as stated in its Articles of Incorporation, to distribute all or any part of its net income, principal, or property, in accordance with determination made by the Community Foundation's Board of Trustees for the purposes set forth in its restated Articles of Incorporation. As a result of the ability to distribute corpus, all contributions not classified as temporarily restricted or permanently restricted are classified as unrestricted net assets for financial statement purposes.

Temporarily restricted net assets consist of deferred gifts receivable including irrevocable charitable trusts, lead trusts, pooled income funds, unconditional pledges, and other time-restricted contributions. When a time restriction ends, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the combined statements of activities as net assets released from restriction. During the year, the Foundation reviewed all funds and transferred \$10,080,000 to temporarily restricted net assets previously classified as unrestricted. This represents the value of the original gift to the Robert H. Tannahill Foundation that is restricted until 2019.

A reconciliation of net assets is included in the combined statements of activities.

Endowment Investment and Spending Policies – The Foundation has adopted investment and spending policies for endowment assets with the intent to preserve the purchasing power of those assets and provide a predictable stream of funding to programs supported by its endowment. The Foundation's spending and investment policies work together to achieve this objective. Diversification by asset class, investment style, and investment manager is employed to avoid undue risk concentration and to enhance total return. The current long-term return objective is expressed as a range from 7% to 9%, net of investment fees. Actual returns in any year may vary from this amount. To satisfy its long-term rate of return objective, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends).

The spending policy calculates the amount of money annually distributed from the Foundation's various endowed funds, for grantmaking and administration. The 2009 spending policy is to distribute an amount of up to 5.5% of the average market value over the previous eight quarters. Accordingly, over the long term, the Foundation expects the current spending policy to allow its endowment assets to grow at the rate of inflation. This is consistent with the Foundation's objective to maintain the purchasing power of endowment assets as well as to provide additional real growth through new gifts and investment return.

The Foundation further classifies its unrestricted net assets as of December 31, 2009 and 2008, as follows:

	2009	2008
Unrestricted	\$ 84,397,045	\$ 75,300,940
Field of interest	67,561,291	47,723,332
Designated	130,887,237	113,085,025
Scholarship	3,836,066	3,327,229
Advised endowment	39,920,660	30,711,352
Charitable gift annuities	5,764,627	5,828,317
Donor advised	61,153,331	61,398,684
Special project	42,553,287	59,949,344
Operating	5,160,830	7,300,839
Funds held as agency endowments	(12,278,520)	(10,701,750)
Total unrestricted net assets excluding supporting organizations	428,955,854	393,923,312
Net assets of supporting organizations	38,074,958	42,559,767
Total unrestricted net assets	\$467,030,812	\$436,483,079

Cash – Cash principally consists of cash contributions received at year-end and not yet invested, as well as checking accounts.

Fixed Assets – Fixed assets are recorded at cost. Depreciation of computer hardware and software is computed using the straight-line method over an estimated useful life of three years. Depreciation of all other fixed assets is computed using the straight-line method over an estimated useful life of five years.

Charitable Gift Annuities – Charitable gift annuities are contracts between the Foundation and a donor in which the Foundation agrees to pay the donor (or other person named by the donor) a lifetime annuity in return for a gift of cash or marketable securities. A liability is recorded for the amount due to an income beneficiary of a charitable gift annuity based on the present value of the estimated future payments to be distributed during the income beneficiary's expected life. Each year, the liability is remeasured, and changes in the liability due to factors other than cash payments, such as changing life expectancies, are recorded as an increase or decrease to revenue and support. The discount rate ranges from 3% to 8% depending on the discount rate in effect at the time of the gift.

Investments – The Foundation reports all investments in equity securities with readily determinable fair values, based on published quotations and all investments in fixed-income securities at fair value based on a pricing service. Limited partnerships are accounted for using the equity method (which approximates market value) and are based on information provided by the general partner and audited financials when available.

Collective funds (or common trust funds) are vehicles organized and administered by a manager for the benefit of its qualified, tax-exempt institutional clients and generally not marketed to the general public. These collective funds are valued by the custodians, based on published quotations when available or based on information from independent, knowledgeable securities brokers or independent securities valuation services. Collective funds are recorded at fair value as the underlying investments consist of securities that have a readily determinable market value.

The net asset value of the Foundation's hedge fund of funds investments are calculated by the fund administrator and market values as of December 31, 2009 and 2008, are based on valuations provided by the managers of the funds. Management reviews and assesses reasonableness of the fair values, including an evaluation of whether the investment returns are in line with expectations. Audited financial statements and other financial information were requested of the hedge fund of funds managers, and fair values were confirmed as part of management's evaluation of fair values. Because of the inherent uncertainty of valuations, values may differ materially from values had a ready market existed.

The redemption frequency for 90 percent of the hedge fund of fund investments is quarterly or semi-annually, none of which have a notification period greater than 95 days and none of which have unfunded commitments. The remaining 10 percent of the hedge fund investments consists of a single investment that is in the process of being liquidated. Liquidation distributions have been received to date on approximately a bi-monthly basis.

Realized gains or losses on investments represent the difference between the original cost of investments and the sales proceeds. Unrealized gains or losses represent the difference between the beginning-of-year value or purchase date during the year and the end-of-year value. Cost is determined on the average-cost basis.

Investment Risks – Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in values in the near

term could materially affect the amounts reported in the accompanying combined statements of financial position and combined statements of activities (see Note 3).

Funds Held as Agency Endowments – The Foundation maintains variance power and legal ownership of agency endowment funds and, as such, reports the funds as assets of the Foundation. A liability has been established for the fair value of the funds, which is generally equivalent to the present value of future payments expected to be made to the not-for-profit organizations that are the ultimate recipients and established the funds. All asset transfers of this type, and the activity associated with those assets, are recognized as agency transactions in the combined financial statements. In order to present the full scope of the Foundation's operations, the Foundation includes the activity (i.e., contributions, investment income, net investment gains (losses), grants, management and other fees) related to such transactions in its combined statements of activities and then separately presents the respective agency activity as a reduction thereof. In the combined statements of financial position, the assets held on behalf of the agency are included in investments and the related liability to the agency is classified as funds held as agency endowments. These assets are managed in accordance with the same investment and spending policies as the Foundation's other endowment funds.

Use of Estimates – The preparation of combined financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the combined financial statements and accompanying notes. Actual results could differ from those estimates.

Retirement Plan – The Foundation has a defined contribution retirement plan covering substantially all of its employees. The Foundation contributes a specified percentage of the annual compensation of participants. Retirement plan expense for 2009 and 2008 was \$162,097 and \$148,575, respectively.

Grants – Grants are recorded as expenses in the year they are approved for payment.

Adoption of New Accounting Pronouncements – On July 1, 2009, the FASB issued FASB ASC Topic 105 (formerly FASB Statement No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles, a replacement of FASB Statement No. 162*). This statement establishes the *FASB Accounting Codification* ("Codification") as the source of authoritative accounting principles accepted by U.S. Generally Accepted Accounting Principles (GAAP). All existing accounting standards are superseded by the single-source Codification for interim and annual periods ending after September 15, 2009. The Foundation adopted this guidance for the year ended December 31, 2009. Such guidance had no impact to the Foundation's combined financial position or results of operations.

In April 2009, the FASB issued supplementary guidance within FASB ASC Topic 820-10 (formerly FSP FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*), pertaining to fair value measurements and disclosures which provides additional guidance for estimating fair value when volume and level of activity for the asset or liability have significantly decreased. This guidance was effective for the Foundation for the year ended December 31, 2009. There were no adjustments to the Foundation's estimates of fair value for assets and liabilities measured at fair value upon the adoption of this guidance, however, the 2009 fair value disclosures in Note 8 were revised in 2009 to show investment categories as required by this supplementary guidance.

In September 2009, the FASB issued FASB Accounting Standards Updates (ASU) ASU No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2009-12 is effective for periods ending after December 15, 2009, with early application permitted. This ASU provides additional guidance on how organizations should estimate the fair value of certain alternative investments such as hedge funds, private equity funds, and venture capital funds. The fair value of investments within the scope of the guidance can now be determined using net asset value (NAV) as a practical expedient, unless it is probable the investment will be sold at something other than NAV. The ASU also requires significant additional disclosure for all investments falling within its scope, not just those for which an entity has elected to use the practical expedient. The Foundation adopted ASU No. 2009-12 for the year ended December 31, 2009.

In May 2009, the FASB issued FASB ASC Topic 855-10, *Subsequent Events* (formerly FASB Statement No. 165, *Subsequent Events*), to establish general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. It requires the disclosure of the date through which management has evaluated subsequent events and the basis for that date, whether the date represents the date the financial statements were issued or were available to be issued. This statement does not apply to subsequent events or transactions that are within the scope of other applicable generally accepted accounting principles that provide different guidance on the accounting treatment or subsequent events of transactions. The Foundation adopted this guidance for the year ended December 31, 2009. The adoption of this guidance had no impact on the Foundation's financial condition or results of operation but did expand disclosures in Note 10.

In July 2006, the FASB issued FASB ASC Topic 740, *Income Taxes* (formerly FASB Interpretation (FIN) No. 48, *Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109*). ASC Topic 740 creates a model to address uncertainty in tax positions and clarifies the accounting for income taxes by prescribing a minimum recognition threshold, which all income tax positions must achieve to meet before being recognized in the combined financial statements. Any differences between the amounts recognized in the combined statements of financial position prior to the adoption of ASC Topic 740 and the amounts reported after adoption are generally accounted for as a cumulative-effect adjustment recorded to the beginning balance of net assets. ASC Topic 740 was effective for the Foundation on January 1, 2009. The adoption of ASC Topic 740 did not have any impact on the Foundation's combined financial position or results of operations and did not result in a cumulative adjustment to net assets as the Foundation has no uncertain tax positions.

3. INVESTMENTS

Cost and market value of investments held as of December 31, 2009 and 2008, were as follows:

	2009		2008	
	Cost	Market	Cost	Market
Mutual funds	\$ 300,811,876	\$ 298,341,461	\$ 277,176,452	\$ 238,329,894
Equity securities	14,928,465	16,656,314	56,043,339	48,617,044
Collective funds	111,131,739	106,318,713	137,942,321	109,574,422
U.S. Government debt securities	5,495,790	5,558,702	9,625,577	10,512,462
Corporate debt securities	438,246	478,198	4,419,989	4,146,943
Marketable securities	432,806,116	427,353,388	485,207,678	411,180,765
Hedge fund of fund	41,628,151	40,942,417	51,111,191	43,831,125
Limited partnerships	43,435,252	56,314,457	29,399,624	24,260,023
Total	\$ 517,869,519	\$ 524,610,262	\$ 565,718,493	\$ 479,271,913

Investment activity in 2009 included unrealized gain of \$93,133,258 and realized loss of \$30,673,642. Investment activity in 2008 included unrealized loss of \$141,432,184 and realized loss of \$5,203,465.

Mutual fund investments include money market, equity, fixed income and asset allocation strategies. Collective fund investments include equity, fixed income and asset allocation strategies.

A majority of the limited partnerships (with a carrying value of \$41,153,026 at December 31, 2009) consist primarily of underlying investments which are marketable and have a readily determinable fair market value.

4. CONTRIBUTIONS RECEIVABLE AND DEFERRED GIFTS RECEIVABLE

Contributions represent current-year contributions as well as unconditional pledges. Contributions are recorded at fair market value on the date of donation. Unconditional pledges and deferred gifts are recorded at the present value of expected net proceeds.

Contributions receivable are recorded at the estimated value on the date of the gift, and an allowance for uncollectible amounts is reviewed annually and adjusted as necessary. Contributions due in more than one year are discounted at rates between 1.55% and 7.4%, using the discount rate in effect at the time of gift.

Contributions receivable represent unconditional pledges, which are expected to be received as of December 31, 2009 and 2008, as follows:

	2009	2008
Within one year	\$17,912,496	\$14,643,080
One to five years	16,846,859	27,487,859
Over five years	13,151,005	14,138,577
Total	47,910,360	56,269,516
Less present value factor at varying rates	(8,152,148)	(9,979,347)
Less allowance for uncollectible accounts	(600,000)	(550,000)
Total contributions receivable	\$39,158,212	\$45,740,169

Conditional pledges totaled \$0 and \$1,468,924 at December 31, 2009 and 2008, respectively, without applying a present value factor. These conditional contributions have not been recorded by the Foundation.

Deferred gifts receivable consist primarily of estates and trusts in settlement, as well as charitable remainder trusts and pooled income beneficiary trusts, commonly known as split interest agreements. Contribution revenue is recorded when the Foundation has the unconditional, irrevocable right to receive benefits under the agreements. Deferred gifts are recorded at the present value of the revenue to be received using discount rates between 2.69% and 7.89% based on the year the trust was established, and an allowance for uncollectible amounts is reviewed annually and adjusted as necessary.

Deferred gifts receivable are expected to be received as of December 31, 2009 and 2008, as follows:

	2009	2008
Within one year	\$2,266,456	\$1,880,855
One to five years	2,507,328	2,703,407
Over five years	4,868,704	4,667,743
Total	9,642,488	9,252,005
Less present value factor at varying rates	(2,624,044)	(2,699,811)
Less allowance for uncollectible accounts	(600,000)	(650,000)
Total deferred gifts receivable	\$6,418,444	\$5,902,194

Contributions receivable and deferred gifts receivable are classified as temporarily restricted assets until received and are adjusted to fair market value at each balance sheet date. Once received, the gift is reclassified to unrestricted net assets.

The Foundation's contributions and deferred gifts receivable released from restrictions during the years ended December 31, 2009 and 2008, amounted to approximately \$107,719 and \$22,612,311, respectively.

5. COMMITMENTS AND CONTINGENCIES

Future minimum rental payments required under building operating leases that have initial or remaining noncancelable lease terms in excess of one year as of December 31, 2009, are as follows:

2010	\$ 321,389
2011	326,688
2012	334,337
2013	339,636
2014	347,284
Thereafter	1,047,282
Total	\$2,716,616

Total rental expense under operating leases aggregated \$313,741 and \$305,220 in 2009 and 2008, respectively.

6. TAX STATUS

The Foundation and its supporting organizations have been recognized by the Internal Revenue Service as organizations described in Internal Revenue Code (IRC) 501(c)(3) and 509(a) as public charities are exempt from federal income taxes under IRC 501(a), and accordingly, no provision has been made for such taxes.

7. GRANTS

The Foundation's grants, excluding supporting organizations and including those to agencies, totaling \$64,289,690 and \$38,595,670 were approved and recognized in the 2009 and 2008 combined statements of activities, respectively. Actual Community Foundation for Southeast Michigan grants paid, including those to agencies in 2009 and 2008, were \$60,413,261 and \$35,669,911, respectively. Supporting organization grants totaling \$3,019,432 and \$3,273,130 were approved and recognized in the 2009 and 2008 combined statements of activities, respectively. Actual supporting organization grants paid in 2009 and 2008 were \$3,001,080 and \$2,993,635, respectively. Supporting organization grants to the Foundation in 2009 and 2008 were \$50,000 and \$67,750, respectively.

8. FAIR VALUE MEASUREMENTS

The Foundation adopted the provisions of ASC Topic 829 *Fair Value Measurements and Disclosures* (formerly FASB Statement No. 157, *Fair Value Measurements*) as of January 1, 2008. This guidance establishes a framework for measuring fair value and provides a three-level fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

In general, fair values determined by Level 1 inputs use quoted prices for identical assets in active markets. Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical assets in inactive markets, or other than quoted prices that are observable for the asset. Level 3 inputs are unobservable inputs that cannot be corroborated by observable market data.

Level 1 classifications consist of common stocks and mutual funds that are valued at the closing price reported on the active market on which the individual securities are traded.

Level 2 classifications consist of commingled funds, private placement mutual funds, and limited partnerships where detailed holdings were available and consisted of securities reported on active markets, as well as debt securities valued using inputs of quoted prices for similar assets.

Level 3 classifications consist of hedge fund of funds and other securities that do not have a readily determinable market value because detailed holdings were unavailable or the securities are not publicly traded. Fair values are based on information provided by the administrators of each underlying fund; the Foundation also takes into consideration consultation with fund investment managers and audited financial information to determine overall reasonableness of the recorded value.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Foundation's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including consideration of inputs specific to the asset.

The following table presents information about the Foundation's assets recorded at fair value as of December 31, 2009, according to the valuation techniques used by the Foundation to determine those fair values (there were no assets measured on a nonrecurring basis as of December 31, 2009):

	Quoted Prices in Active Markets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	Total Fair Value
Mutual funds	\$ 268,741,144	29,600,317	–	\$ 298,341,461
Equity securities	16,656,314	–	–	16,656,314

Changes in Level 3 assets measured at fair value:	Balance – January 1, 2009			\$ 43,831,125
	Total realized and unrealized gains			6,393,357
	Net purchases, sales, and maturities			(9,282,065)
	Balance – December 31, 2009			\$ 40,942,417

The following table presents information about the Foundation's assets recorded at fair value as of December 31, 2008, according to the valuation techniques used by the Foundation to determine those fair values (there were no assets measured on a nonrecurring basis as of December 31, 2008):

	Quoted Prices in Active Markets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	Total Fair Value
Mutual funds	\$ 238,329,894	–	–	\$ 238,329,894

	Net purchases, sales, and maturities			17,769,504
	Balance – December 31, 2008			\$ 43,831,125

Hedge Fund of Funds – Hedge fund of funds of \$40,942,417 and \$43,831,125, at December 2009 and 2008, respectively, are accounted for under the fair value method using unobservable inputs, and a reconciliation of beginning and ending fair value is provided.

Limited Partnerships – Limited partnerships of \$56,314,457 and \$24,260,023, at December 31, 2009 and 2008, respectively, are accounted for under the equity method, however, the transparency of the holdings are such that equity approximates fair value. These investments have been included in the fair value table for additional information only, and therefore, are excluded from the reconciliation of beginning and ending fair value.

9. ENDOWMENT BY NET ASSET CLASS

The composition of endowment funds by type of fund is as follows:

December 31, 2009

Endowment by Net Asset Class	Unrestricted	Temporarily Restricted	Total Net Assets
Donor restricted endowment funds	\$ –	\$ 10,080,000	\$ 10,080,000
Other endowment funds:			
Unrestricted	84,397,045	–	84,397,045
Field of interest	67,561,291	–	67,561,291
Designated	130,887,237	–	130,887,237
