

Community Foundation

FOR SOUTHEAST MICHIGAN

2014 YEARBOOK

The Community Foundation for Southeast Michigan is a multifaceted, full-service philanthropic organization leading the way to positive change in southeast Michigan.

We promote and facilitate community philanthropy in the seven counties of Wayne, Oakland, Macomb, Monroe, Washtenaw, Livingston and St. Clair, and we help donors invest in organizations they care about — locally and nationwide.

We do this by:

- Making strategic investments in programs and organizations that benefit the region
- Equipping organizations and the public with knowledge and information that will lead to positive change
- Building endowment — community capital — to meet our region’s needs, today and tomorrow, and
- Providing expert assistance to donors and their advisors in their charitable planning.

MESSAGE FROM THE CHAIR AND PRESIDENT

The Community Foundation for Southeast Michigan is here to permanently support our region. That's a statement of fact, as well as our mission. This year, the centennial of the community foundation movement in America, we reach our 30-year milestone. Although relatively young, we're one of the nation's fastest-growing community foundations, thanks to the generosity of the thousands of people who share our vision of creating lasting, positive change in southeast Michigan.

While the Community Foundation is rooted in a geographic region, our work is as far-reaching as the dreams and aspirations of those who call it home. The Community Foundation exists to connect people and organizations with the resources they need to put bold

and large, regional and local, old and new. We support efforts that address the current pressing needs of the people in our region, but we also make many investments designed to bear fruit far into the future. We're both a stabilizing presence and an agent for change.

Thanks to the generosity of many, we gained new assets in 2013 of more than \$80 million. Total assets increased to more than \$734 million.

During the year, we were pleased to welcome the DMC Foundation as a supporting organization and to work with the new board of that organization. The DMC Foundation promotes the well-being of people in the metropolitan Detroit area by supporting health and medical research and health-related education and community activities.

The Community Foundation for Southeast Michigan is more than an organization. It is a collection of nearly three decades worth of powerful change.

plans into action. We're experts at identifying community needs, building partnerships, creating plans of action, and providing the funding that brings solutions to life.

In 2013, we authorized more than 3,000 grants totaling nearly \$49 million to support programs in the arts, education, economic development, the environment, health, human services and more. Grants were made in all seven counties of our service area, to organizations small

and large. There is truth in the adage that a society grows great when we plant trees whose shade we know we will never sit in. Because the Community Foundation will be here in perpetuity, we are uniquely positioned to take on challenges and opportunities that require commitment over the long haul. Here is a quick progress report on several investments that are having a lasting impact on our region.

2013 HIGHLIGHTS

- The Community Foundation and its affiliates received more than \$80.5 million in new assets
- Donors established 34 new funds
- The Foundation distributed nearly \$49 million through more than 3,000 grants
- By year end, the Community Foundation had awarded more than \$601 million through nearly 47,000 grants

New Economy Initiative (NEI). Unprecedented when we launched it in 2006, this 10-foundation, \$100 million economic development initiative has been effective at advancing innovation and opportunity in southeast Michigan. NEI's particular strength has been fostering entrepreneurial activity and the services and infrastructure that sustain economic growth. We are pleased to have the continued support of NEI's foundation partners and welcome the William Davidson Foundation to the initiative. See neweconomyinitiative.org for exciting news about NEI's progress.

Rivertown Neighborhood. Today's seniors are enjoying better health and longer lives than ever before, but we as a society simply haven't kept pace with the emotional, physical and material needs of an aging population. Four years ago we provided \$2 million in seed capital to support a partnership among the region's top providers of services to seniors — Presbyterian Villages of Michigan, United Methodist Retirement Communities and Henry Ford Health System. They came together on Detroit's east side to pioneer a new approach to health and housing for low-income seniors. Today, the abandoned factory where they began this experiment is part of a \$43 million senior community that is gaining national attention as a model of innovative programs and services. It is also a stabilizing force in the neighborhood and employs more than 200 people. www.pvm.org/locations/rivertown

Arts and Cultural Organizations. The quality of life we enjoy in southeast Michigan would be unimaginable without the strong arts and cultural institutions that call this region home. The hundreds of organizations that enrich our lives with music, theater, dance, art and history also represent an economic powerhouse. Alongside our support for individual arts and cultural nonprofits — more than 333 grants totaling more than \$7 million last year to organizations large and small — we seek out projects with the potential to raise up the entire sector.

For example, a grant we made to ArtServe Michigan in support of their Cultural Data Project helped them gather data from more than 450 nonprofit organizations, making a rock-solid case for the economic impact of arts and culture on the Michigan economy. ArtServe lobbied successfully for the first increase in state arts funding since the early 1990s. It's a great example of how data can be used to improve nonprofit performance and lead to more informed public policy. www.artservemichigan.org

Detroit Greenway Construction. We've been working with communities for more than 10 years to plan and build greenways. There are now more than 100 connected miles of walking and biking infrastructure linking more than 80 municipalities. Building greenways requires property acquisition, zoning, fundraising, engineering and collaboration across neighborhoods, municipalities and jurisdictions. Last fall we celebrated two significant

GRANT AUTHORIZATIONS PER YEAR

greenways milestones. First, construction began on the final lynchpin in 20 miles of continuous urban greenways in the city of Detroit. The completed greenway will extend from the Detroit Riverwalk to Eastern Market to the cultural institutions of Midtown and Wayne State University — a dream many years in the making. Meanwhile, in south suburban Wayne County, a ribbon cutting marked the completion of the mile-long Flat Rock–Oakwood Connector Trail, the final piece of a 30-mile east-west greenway extending from Lake Erie Metropark to the Huron River near Belleville.

We're proud that the vision, planning and funding of the regional greenways movement began right here at the Community Foundation. We estimate that our \$25 million investment in regional greenways has leveraged more than \$125 million public and private dollars to these efforts over the past decade. Southeast Michigan is now recognized as a national leader in greenways, and our expertise is sought out by communities around the country.

Finally, no review of the past year would be complete without mention of the Detroit bankruptcy. As you may know, the Community Foundation — along with other regional and national foundations — played a key role in an extraordinary proposal to move the city forward,

protect city pensions and safeguard the collection of the Detroit Institute of Arts. As we go to press, negotiations and rulings continue, and the ultimate resolution of the bankruptcy remains unknown. But we have learned throughout this experience that people care about what happens in Detroit. Its contributions to American culture, from the automobile to Motown and beyond, have earned it a special place in the hearts of many. And the problems Detroit faces, although perhaps unprecedented in scale, are shared by many municipalities. The world is watching what takes place here, and we are not alone.

As southeast Michigan's permanent source of community capital and expertise, we will always be engaged with the important issues, problems and opportunities of our day. We do what it takes to seek creative solutions to our most challenging circumstances. But it's also our mission to look ahead and plan for the brighter future that awaits us.

We want to thank you and the thousands of others who support us and make our work possible. We are grateful to our outstanding, dedicated Board of Trustees of the Community Foundation for their expertise and guidance, and to our staff and volunteers for their smart and hard work.

Please let us know how you think we're doing, and share your vision for a healthier, more dynamic and prosperous southeast Michigan. You can follow us on Facebook and Twitter, or reach out to us directly at 313.961.6675.

PROMOTING HEALTHY FOOD

The Double Up Food Bucks program has become the national model for increasing access to healthy food among low-income families. The 2014 federal Farm Bill allocates millions of dollars to support the Double Up Food Bucks concept of using matching funds to double the value of Supplemental Nutrition Assistance Program (SNAP) dollars used to purchase locally grown fruits and vegetables.

The Community Foundation was the first funder of the Detroit pilot of this program five years ago. We continue to support its implementation throughout the region — including, most recently, at the Chelsea Farmers' Market. We were intrigued by the bold vision of its founder, the Ann Arbor-based Fair Food Network, to improve the quality of food available to people on public assistance and to generate additional revenue for small- to mid-size farmers. Like the great fresh food grown here, it's an important Michigan export that is affecting lasting change in people's lives.

PROGRAMS AND GRANTS

To us, southeast Michigan isn't just a geographic region. It's the place we call home. We have a strong understanding of how it works and what can be done to make things better. Over the years, we've helped to create and fund numerous projects — ranging from education to arts and culture, health, community development and the environment — that improve the lives of those who live here.

Through our grantmaking, the Community Foundation for Southeast Michigan seeks to build a stronger, more competitive region by encouraging regional thinking and collaboration, fostering innovation, and leveraging public, private and philanthropic resources for area organizations and communities.

In 2013 we awarded nearly \$49 million to a wide range of charitable organizations and activities. On the following pages you will find a small sample of the more than 3,000 grants made by the Community Foundation last year. In addition to grants that respond to current pressing needs, we also invest in ideas, plans and programs that will have a positive impact on southeast Michigan far into the future.

MEASURING CREATIVE SECTOR IMPACT

Good data can lead to better decision-making in public life. In 2013, the state of Michigan increased funding for the arts for the first time in more than 10 years. It is no coincidence that this followed the publication of the first Creative Sector Michigan report, which shared powerful data about the contributions of the nonprofit arts and cultural sector to Michigan's economy.

Statewide, arts and culture organizations contributed 16 percent of the total \$13.1 billion in tourism dollars generated the previous year. That's more than golf, boating, hunting, fishing, hiking and biking combined. How do we know this? Because the arts advocacy group ArtServe Michigan tracks the outcomes of 785 arts and culture organizations through its Cultural Data Project. With Community Foundation support, the project has become a valuable tool for understanding the creative sector and heightening awareness regarding its importance to our region and state.

The recent economic upturn has made it possible for more nonprofits to prioritize their long-term financial destinies by building endowment with the Community Foundation. A total of 189 organizations are working with us to safeguard their futures with the permanently endowed financial resources needed to weather challenging times when they occur.

One of the newest agency endowments benefits the Northville District Library. The library has been a treasured landmark and civic resource since 1889, and has kept pace with the evolving information and educational needs of its community ever since. Today, donors can support the library by making contributions to its new endowment — or they can create their own funds to benefit the library in memory of a loved one or to advance the part of its mission that means the most to them.

FUNDS OF THE FOUNDATION

Making southeast Michigan a better place isn't a one-person or a one-organization job; it takes a team of people bringing passion and hard work to philanthropic projects. The founders of the Community Foundation recognized that working together and pooling the professional and financial resources of many individuals was the best way to create lasting benefit for all.

For 30 years, caring and civic-minded individuals, families and organizations from all walks of life have established more than 1,000 funds at the Community Foundation to support that vision. The funds of the Community Foundation reflect the varied wishes of their founders. An important responsibility of our board, volunteers and staff is to honor donor intent by ensuring that the grants made from each fund meet the original goals of the founders.

SUSTAINING COMMUNITY ORGANIZATIONS

Arts & Scraps is a nonprofit on Detroit's east side that each year manages the amazing feat of converting 28 tons of materials headed for a landfill into creative hands-on projects that bring learning and joy to 275,000 people of all ages. The Community Foundation was one of the first to support this organization after its inception in 1989. In 2013, we made an \$80,000 grant over two years to help Arts & Scraps implement a strategic sustainability plan. We want to make sure they can continue to thrive and grow in service to their community. To that end, the sustainability plan was developed with the help of the DeVos Institute of Arts Management at the Kennedy Center for the Performing arts in Washington, D.C., a leading arts management consultancy.

REPAIRING BIKES FOR KIDS

In a sprawling city like Detroit, where many neighborhoods lack reliable public transportation, a bicycle can mean freedom, access to opportunities and exercise. For many low-income youth, however, a bicycle is out of reach.

With help from the Community Foundation, the Detroit Eastside Community Collaborative is offering young people the opportunity to earn their own bicycles by completing a maintenance, safety and repair course. Using donated bikes, the Collaborative has equipped program sites and instructors with the tools they need to teach repair and maintenance skills. To earn their bikes, students must demonstrate their skills by providing no-cost bicycle repair clinics in their communities. With a plethora of urban greenways for cycling and the rise of a strong bicycling culture in Detroit, the youth participants will gain skills they can offer to the city's new bike repair and manufacturing enterprises.

TRAINING VETERANS FOR JOBS

A grant from the Community Foundation funded scholarships for military veterans and their family members, enabling them to take part in the Red Cross Certified Nursing Assistance Training Program. The highly regarded program prepares students for well-paying jobs in the home health care and nursing home industries, which are currently experiencing a shortage of qualified workers.

Nationally, more than 85 percent of participants in the program pass the state certification exam, and nearly all graduates readily find employment after finishing the three- to four-month training program. The first Community Foundation-sponsored class of trainees is pictured here with their Red Cross instructor.

EXPANDING GREENWAYS

In 2013, work began on the long-awaited extension of the Dequindre Cut greenway. The landscaped hiking and biking path will continue north through the Eastern Market to Mack Avenue, where it will connect to the Midtown Loop Greenway. That means city visitors and residents will soon be able to enjoy a seamless greenway extending from the Detroit River to the cultural institutions of Midtown and Wayne State University. The Community Foundation was the first funder of the Dequindre Cut and has been the driving force behind greenways in Detroit and throughout the region.

A \$300,000 grant is supporting a new public gathering space that will be built next to the Wilkins Street Bridge along the Dequindre Cut. The 30- by 60-foot pavilion will be strategically positioned between Eastern Market and The Greening of Detroit's Market Garden for use as an outdoor classroom for gardening and urban agriculture courses and a site for demonstrations and events. The Dequindre Cut extension project has attracted more than \$5.6 million in state and federal funds and will be completed in late 2014.

SUPPORTING SENIORS

Sometimes the simplest things can make all the difference in an elderly person's ability to live independently. A ride to the doctor, a friendly visit or a simple home repair — things many of us would offer if we knew there was a need. A grant from our affiliate, the Chelsea Community Foundation, is making it possible for the Chelsea Senior Activities Center to establish a network that matches individuals with volunteer opportunities that support seniors. The Senior Center is well-positioned for the task, since it deploys more than 200 volunteers in more than 3,000 hours of service per year.

The Senior Support Network will recruit and train volunteers and service providers, develop a database for tracking requests and assignments, and market the network to seniors. The goal of the program is to ensure that Chelsea residents can age in place safely in their own homes, living independently and comfortably regardless of age, income or ability level.

AFFILIATED FOUNDATIONS

The following affiliated foundations are administered as part of the Community Foundation. Each affiliate is dedicated to building charitable resources for a particular geographic area within southeast Michigan, and to investing those resources in programs and organizations working to enhance the quality of life in that area. Community Foundation staff assists each affiliate in making effective investments in local nonprofits and helping its donors fulfill their charitable interests.

With support from 10 regional and national foundations, NEI has made \$76 million in grants that brought more than 35,000 into contact with the training and support they needed to build businesses and create jobs.

This year, NEI programs reached deeper into the region's ethnic and minority neighborhoods to deliver business support services and funding to hardworking local entrepreneurs. By supporting corner bakeries, repair shops and small manufacturers — along with high-tech and larger enterprises — NEI and its partners are strengthening the social fabric and creating a more diverse regional economy.

TEACHING THE HEARING IMPAIRED

Madonna University in Livonia offers the state's only bachelor of arts degree in sign language studies. A grant from the Community Foundation is helping the school use its unique expertise to develop a master's degree program for teachers of the hearing impaired. Research tells us that deaf and profoundly hearing-impaired children learn best with a teaching method that combines American Sign Language (ASL) and English language training. Unfortunately, a shortage of teachers with the suitable experience is making it difficult to serve these children. Madonna University's program aims to reduce the achievement gap between deaf and hearing children by using bilingual and bicultural approaches to teaching both ASL and written English.

SUPPORTING ORGANIZATIONS

A supporting organization is a separate corporation managed by the Community Foundation. Supporting organizations offer donors significant advantages — favorable tax status, and full participation in grantmaking and investment activities — while avoiding the financial and management burdens private foundations often encounter. Supporting organizations also take advantage of the professional support of Community Foundation staff to assist in the administration of their funds. Donors may establish new supporting organizations or terminate existing private foundations into supporting organizations at the Community Foundation.

At that time, it was valued at approximately \$54 million. Today, the foundation continues to support the eight nonprofit organizations selected by the late Mr. Tannahill.

DONORS TO THE FOUNDATION

At the Community Foundation, we work with donors to honor their charitable intentions and to maximize the impact of their investment. Through hard work and hard data, we help ensure that the funds entrusted to us will do the most good — today, tomorrow and always.

Our successful investment history, coupled with expert assistance to donors and their advisors and deep knowledge of the philanthropic landscape in southeast Michigan, make us an excellent partner to those committed to a stronger future for our community. We're here to help people put their good intentions into action.

Since 1984, thousands of individuals, organizations, families, businesses and other foundations have worked with the Community Foundation to promote and facilitate change in the region and invest in organizations they care about nationwide. We extend our deepest gratitude to those who made gifts to us in 2013 — and to all who have entrusted their giving to us over the past 30 years.

MAKING A GIFT

For more than 30 years, the Community Foundation has been helping donors fulfill their philanthropic goals. Here are some of the ways the Community Foundation can help you make the most of your charitable dollars.

WE HELP YOU WITH STRATEGIC PHILANTHROPY AND PERSONALIZED GRANTMAKING

What is your vision for the future? How would you like to make a difference? Either through personal, one-on-one conversations, or by working with your professional advisor, we help you create giving solutions that reflect your personal values, motivations and goals. Our staff can tell you about grant opportunities that meet your charitable objectives and interests.

WE WORK WITH GIFTS OF ANY SIZE AND DONORS AT EVERY LEVEL OF GIVING

What does it take to become a donor? Getting started is easy, and there is no reason to wait. The Community Foundation can help every donor find the right charitable-giving tools to match their stage of life and their preferred level of giving.

WE MULTIPLY THE IMPACT OF YOUR GIFT DOLLARS BY POOLING THEM WITH OTHER GIFTS AND GRANTS

How can your donation, no matter how large or small, make an even greater impact on the causes you care about? Because the Community Foundation accepts gifts from hundreds of individuals and organizations each year, we are able to pool gifts from donors who share common interests and increase the dollars available to invest in a particular cause. This is the power of collective, community philanthropy.

WE HELP ANY GIFT HAVE BOTH AN IMMEDIATE AND A LONG-TERM IMPACT

How can you have an impact both now and in the future? If you make a gift to an endowment, it becomes part of a permanent pool of assets that support charitable causes in perpetuity. Over time, as the endowment grows, it produces more charitable dollars that go back into the community. The gift you make today keeps on giving forever.

WE HONOR YOUR CHARITABLE INTENTIONS

How do you know that your gift will continue to support the causes you care about long after you are gone? By partnering with the Community Foundation, you are assured that your charitable dollars will always serve the purpose you intended. The Community Foundation's Board of Trustees oversees all grantmaking and carefully stewards the charitable assets our donors have contributed over the years.

For more information, please contact a member of the philanthropic services team at 313.961.6675, or visit www.cfsem.org/make-gift.

ENDOWMENT INVESTMENT HIGHLIGHTS

At December 31, 2013, the endowment investment pool totaled \$518 million, representing nearly three-quarters of the Foundation's total assets. The endowment pool embodies the Foundation as a permanent source of philanthropic capital for our region.

For the year, the net of fee return of the endowment pool was 9.8 percent. While diversification and manager performance have led to top quartile results over the long term, these factors worked against the Foundation's endowment pool in 2013. The Foundation ranked at the 89th percentile of its endowment and foundation peer universe.

Longer term, performance remained strong. Over the 10-year period, the return of the Foundation's endowment portfolio ranked in the top third of its peers. Diversification remains the cornerstone for overall portfolio positioning, as over the long term, diversified portfolios are expected to produce better risk-adjusted returns than concentrated ones.

Changes to the portfolio in 2013 included hiring a direct lending manager to replace the high yield manager, adding an emerging market debt manager and reducing the interest rate risk in the portfolio. The portfolio is positioned with an expectation for bouts of volatility with an eye on long-term growth opportunities.

The Community Foundation's Investment Committee and its consultant, NEPC, LLC, continue to seek opportunities to diversify the portfolio that can improve the portfolio's risk/return profile. They meet regularly and we thank them for their hard work and excellent counsel.

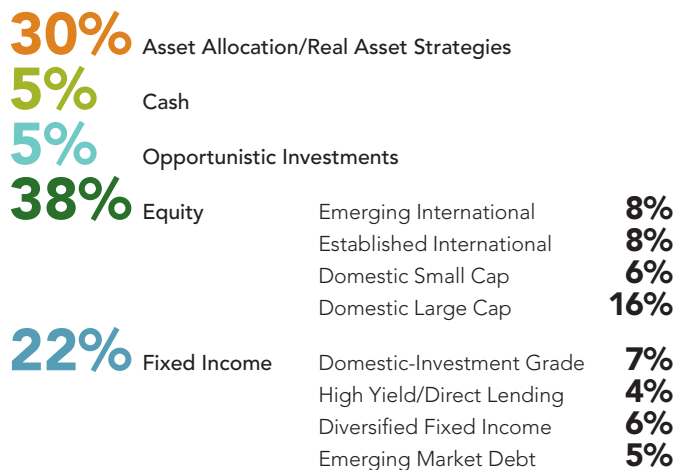

The chart below reflects the target asset allocation of the Foundation's endowment pool at December 31, 2013:
