MESSAGE FROM
THE CHAIR & PRESIDENT

Community is one of the oldest and deepest human desires. Each of us, throughout our lifetimes, belongs to multiple communities – neighborhoods, schools, houses of worship, places of work. Through communities, we connect with and contribute to the world around us.

The Community Foundation for Southeast Michigan has the great privilege of connecting people and organizations to their communities – and across communities – through thoughtful philanthropy. Our challenge is to use the collective interests of our donors and partners to achieve real, lasting improvement in the quality of life for all throughout the region.

Last year, we distributed more than \$87 million in over 3,900 grants – one of the largest amounts in the Community Foundation’s 35-year history. Our grants support thousands of promising programs in the arts, education, economic development, environment, health, human services, and more. Grants were made to organizations small and large, regional and local, old and new. In this report, you can read about how our support of leaders, innovation, and sustainability have made permanent impact in the region.

Thanks to thousands of donors, the Community Foundation continues to rank in the top 30 in asset size of more than 800 community foundations nationwide. In 2018, we received more than \$94 million in new gifts, and at year-end 2018, our assets totaled more than \$870 million.

The Community Foundation promotes the value of endowments: building permanent community capital. There’s a growing recognition that having predictable financial support through both good and weaker economic times allows charitable organizations to innovate and maintain quality programs. We are pleased that now more than 200 organizations are building endowment with the Community Foundation and benefitting from our support of their efforts.

For two decades, the Community Foundation has supported the development and maintenance of greenways and public spaces. While largely a public responsibility, private financial support for greenways is valuable, and in some cases, essential. The Community Foundation has held endowments to support maintenance of selected spaces in Detroit for many years. This year the Ralph C. Wilson Jr. Foundation’s commitment to the Detroit RiverFront Conservancy to develop the Ralph C. Wilson Jr. Centennial Park on Detroit’s west riverfront led to the Wilson Foundation contributing \$10 million to the Community Foundation to support the maintenance of that Park in perpetuity. The Wilson Foundation committed an additional \$10 million to the Community Foundation to ensure the maintenance of other greenways across the seven counties. We hope to continue to increase the amount of endowment support available across the region to assist in keeping public spaces maintained for the benefit all.

During 2018, the Community Foundation continued raising awareness about how change in the delivery of information and news impacts our lives, our communities, and our democracy. A series of public discussions was held with experts in data and information science, first amendment policy and the law. The Community Foundation, the John S. and James L. Knight Foundation and the Ford Foundation, are working together to support quality local journalism. Grants to 20 partnering organizations support a variety of projects, including a partnership of the Detroit Free Press with Michigan Community Resources aimed at educating citizens about how to utilize the Freedom of Information Act to improve community knowledge. A partnership of Michigan State University and Grandmont Rosedale

Development Corporation will educate community journalists on how to better utilize their cell phones to capture high-quality photos and video.

The continued opioid addiction epidemic is touching individuals and families across the country and throughout our region. In 2017, drug overdoses killed nearly 2,700 people in Michigan, with 1,901 of those deaths attributed to opioids. The Center for Disease Control reports that overall drug overdose deaths exceeded traffic and gun deaths combined in 2017, a figure that is likely underreported. The Community Foundation, Blue Cross Blue Shield, Blue Cross Blue Shield Foundation, Michigan Health Endowment Fund, and the Superior Health Foundation came together to make grants during the year to address the epidemic. The partnership was expanded to include the state of Michigan, Flinn Foundation, and the Jewish Fund. Already in 2019, with the support of this partnership, the Community Foundation has made \$2.7 million available to health care systems to implement a “no wrong door” approach. This better connects people who have opioid addictions to providers in their communities for medical assisted treatment and therapy.

Since its inception in 2007, the New Economy Initiative (NEI) has received total contributions of \$159 million from 13 foundations. NEI focuses on entrepreneurship as a driver of personal, community, and economic development and growth. To date, NEI grantees have helped more than 276,000 people through events, workshops, and programs. More than 12,000 businesses have been assisted and 2,700 new businesses launched. NEI has provided \$2.2 million to 144 existing businesses in Detroit, Highland Park, and Hamtramck. An additional 2,200 businesses in these communities have been connected to support services to assist with their growth.

The United States census is not something we often think about, but the data gathered every 10 years are

important to our everyday lives. Historically, some populations, including communities of color, low-income households, immigrants, and young children, have been under-counted in the census. Undercounts deprive communities of necessary resources and representation. For the first time, the 2020 census will be implemented largely using online data collection. The Community Foundation has launched the “Southeast Michigan Counts” campaign in support of a complete and accurate count in the 2020 U.S. Census. The effort is supported by the Michigan Nonprofit Association, the Council of Michigan Foundations, and the Ballmer Group. The Community Foundation will provide grants to local nonprofit organizations, libraries, churches, community centers, and others to engage under-counted communities in understanding the importance of the census and to increase participation in their communities.

Through these activities and the hundreds of grants we provide, the Community Foundation encourages permanent, positive change. With the generous support of thousands of donors, the Community Foundation builds endowment for the region and helps individuals, families and businesses fulfill their charitable goals. We are grateful to all who entrust their charitable giving with us.

We appreciate the service of our dedicated Trustees and our hundreds of volunteers. We thank all of them for another year of commitment and hard work. We would like to recognize the service of David Baker Lewis, who stepped down from our Board in 2018. Sadly, we note the passing of Terry Adderley, Alfred R. Glancy III, The Hon. Damon J. Keith, and Jonathan T. Walton, who were valued long-time members of our Board.

We are always eager to hear your thoughts about how we can have the most impact on the region. We are honored to serve southeast Michigan and thank you for your continued support.

INNOVATION

Addressing opportunities to improve lives in southeast Michigan requires innovative approaches. The Community Foundation partners with organizations that are making improvements on a system-wide basis. We support programs that demonstrate emerging ideas, new collaborations, and solutions to significant challenges.

DEVELOPING SOCIAL & EMOTIONAL SKILLS FOR STUDENT SUCCESS

Research shows that children with well-developed social and emotional skills are more successful in school and life. The Positive Emotional Development and Learning Skills (PEDALS) Program teaches 3- to 5-year-old children functioning skills, including working memory, cognitive flexibility, and inhibitory control. With support from the Ralph C. Wilson Jr. Foundation and the Community Foundation's oversight, implementation of PEDALS Southeast Michigan will impact the outcomes of more than 1,100 children in 86 classrooms in the region by 2020.

CONNECTING COMMUNITIES TO HEALTH RESOURCES

Low-income families often face barriers to being healthy that higher income families do not. Detroit Local Initiatives Support Corp. (LISC Detroit), an organization that equips struggling communities with the capital, strategy, and know-how to become places where people can thrive, developed an innovative community health worker program. The initiative is designed to improve health “on the ground” by building trust between Detroit residents and health care providers. Community health and safety workers act as liaisons between residents and local law enforcement, providing safety training and education to block clubs and offering health and wellness training for children, parents, and seniors. The Community Foundation provided funds to support additional health workers to help expand the program into more neighborhoods.

Understanding the importance of supporting local news, the Community Foundation partnered with the John S. and James L. The partnership led to the creation of the Detroit Journalism Engagement Fund, which has provided \$650,000 to 15 journalism projects since 2017. Projects have ranged from a race and justice reporting initiative highlighting issues affecting communities of color to workshops that advance citizen journalism. Providing information on issues as they emerge also helps the region prepare for the future.

Housed in an historic Carnegie Library building in downtown Mt. Clemens, The Art Center is one of the key arts organizations in Macomb County. Recognizing the vital role The Art Center plays in the local and regional arts community, the Community Foundation supported a program to help local artists. The approach uses artistic processes to build trust, explore new possibilities, and advance arts-based strategies for systemic change. Developed in partnership with EmcArts, an organization that has worked with dozens of communities in the U.S. and Canada, the goal is to help communities make progress toward justice, equity, and creative vitality.

REGIONAL IMPACT

Complex issues in the region cut across geographic boundaries. The Community Foundation considers issues from the perspective of the seven counties it serves and works proactively to address the area's greatest needs. We strive to break down barriers. We look for solutions to issues, to advance equity and to provide opportunities for all to prosper.

A SOLID FOOTING FOR SENIORS

Each year, older Americans experience tens of millions of falls incurring billions in healthcare costs. According to the National Council on Aging, falls are the leading cause of fatal and nonfatal injuries for older Americans. To help vulnerable populations in the region, in 2018 the Community Foundation provided support to the local health and human services organization, Evangelical Homes of Michigan Senior Solutions, for FallProof™, a national award-winning balance and mobility initiative.

TEACH A CHILD TO FISH

Across the nation, the National Park Service operates Junior Rangers, a program that encourages children and their families to enjoy the parks' vast recreational opportunities. This past year, the Community Foundation provided funding to the National Park Foundation, in partnership with the River Raisin National Battlefield Park in Monroe, to offer fishing clinics to young people from across the region as an extension of the Junior Ranger program.

Funds of the Foundation

The Community Foundation helps caring people support their vision of a healthier, more dynamic, and prosperous region. SUSTAINABILITY

The Community Foundation makes strategic investments to move the region forward with an eye toward permanent, positive change. We educate the community on pressing needs, build partnerships, undertake targeted initiatives, and make grants to support promising projects and organizations.

PUTTING PERFORMING ARTS TO WORK

When arts are integrated into other academics, studies suggest students show increased academic achievement and develop stronger leadership and artistic skills. The Community Foundation partnered with Living Arts to help fund the expansion of Detroit Wolf Trap, a program that provides professional development, mentoring, and coaching for Detroit-area early childhood educators, parents, and caregivers.

MOUNTAIN BIKING GOES THE DISTANCE

The Potawatami Mountain Biking Association (PMBA) has played an important role in making mountain biking accessible through its leadership in developing a network of connected trails in the Pickney State Recreation Area. Due to increasing visitation and usage, the Michigan Department of Natural Resources is expanding the trail system's parking lot and developing new trailheads. At the same time, the Community Foundation is supporting PMBA's vision of a series of five interconnected trail loops with funds for trail planning and design. When completed, the trail circuit will be 20 miles in length.

Making a Gift

For 35 years, the Community Foundation has helped donors to fulfill their philanthropic goals and create permanent, positive change in southeast Michigan. Here are some of the ways the Community Foundation can help you make the most of your charitable dollars.

We help you with strategic philanthropy and personalized grant-making

What is your vision for the future? How would you like to make a difference? Either through personal, one-on-one conversations, or by working with your professional advisor, we help you create giving solutions that reflect your personal values, motivations, and goals. Our staff can tell you about grant making opportunities that meet your charitable objectives and interests.

We work with gifts of any size and donors at every level of giving

What does it take to become a donor? Getting started is easy, and there is no reason to wait. The Community Foundation can help every donor find the right charitable-giving tools to match their stage of life and their preferred level of giving.

We multiply the impact of your gift dollars by pooling them with other gifts and grants

How can your donation, no matter how large or small, make an even greater impact on the causes you care about? Because the Community Foundation accepts gifts from hundreds of individuals and organizations each year, we are able to pool gifts from donors who share common interests and increase the dollars available to invest in a particular cause. This is the power of collective, community philanthropy.

We help any gift have both an immediate and long-term impact

How can you have an impact both now and in the future? If you make a gift to an endowment, it becomes part of a permanent pool of assets that supports charitable causes in perpetuity. Over time, as the endowment grows, it produces more charitable dollars that go back into the community. The gift you make today keeps giving forever.

We honor your charitable intentions

How do you know that your gift will continue to support the causes you care about long after you are gone? By partnering with the Community Foundation, you are assured that your charitable dollars will always serve the purpose you intended. The Community Foundation Board of Trustees oversees all grantmaking and carefully stewards the charitable assets our donors have contributed over the years.

Endowment Investment Highlights

The Community Foundation for Southeast Michigan secures funds to support the region. The Community Foundation’s Investment Committee provides direction and oversight to the investment program of all funds and particularly the endowment investment pool. At December 31, 2018, the Community Foundation’s endowment investment pool totaled nearly \$571 million, representing more than 65 percent of the Foundation’s total assets.

Working closely with its consultants at NEPC LLC, the Committee’s continued efforts in 2018 were tied to a previously developed strategic asset framework balancing risk, return, fees, and complexity. Policy changes during the year included reducing the multi-asset allocation to hedge funds. Correspondingly, allocations to private markets and fixed income were each increased. To provide inflation protection and to support overall credit quality, a new target allocation to Treasury Inflation Protected Securities was added.

The international equity portfolio was also modified to provide more diversification. Two style-biased active managers were terminated in favor of a more core-like

actively managed strategy. A developed international small cap allocation was funded in early 2019 to broaden the portfolio’s market cap exposure.

Investment markets in 2018 were volatile and overall disappointing. The Community Foundation’s portfolio was not immune. The portfolio returned -5.3%, which was just behind the median endowment and foundation return of -5.0%. The Foundation seeks the total return for the endowment to rank in the top-half of its peer group over time, while taking similar or less risk. During the first quarter of 2019, the Foundation’s portfolio performance has rebounded, recognizing that markets may experience continued volatility.

The Committee works closely with NEPC, regularly meeting to review investments risks and opportunities as they arise. A subcommittee is also engaged as needed, to keep the momentum going between meetings of the full Committee.

The Community Foundation recognizes and appreciates the dedication and support of NEPC and all its volunteer Committee members.
